

Community Engagement Methodology

Community meetings were held on:

Tuesday, October 17

Harvey Elementary School 54 attendees

Indian Trail High School and Academy 147 attendees

Wednesday, October 18

Tremper High School 70 attendees

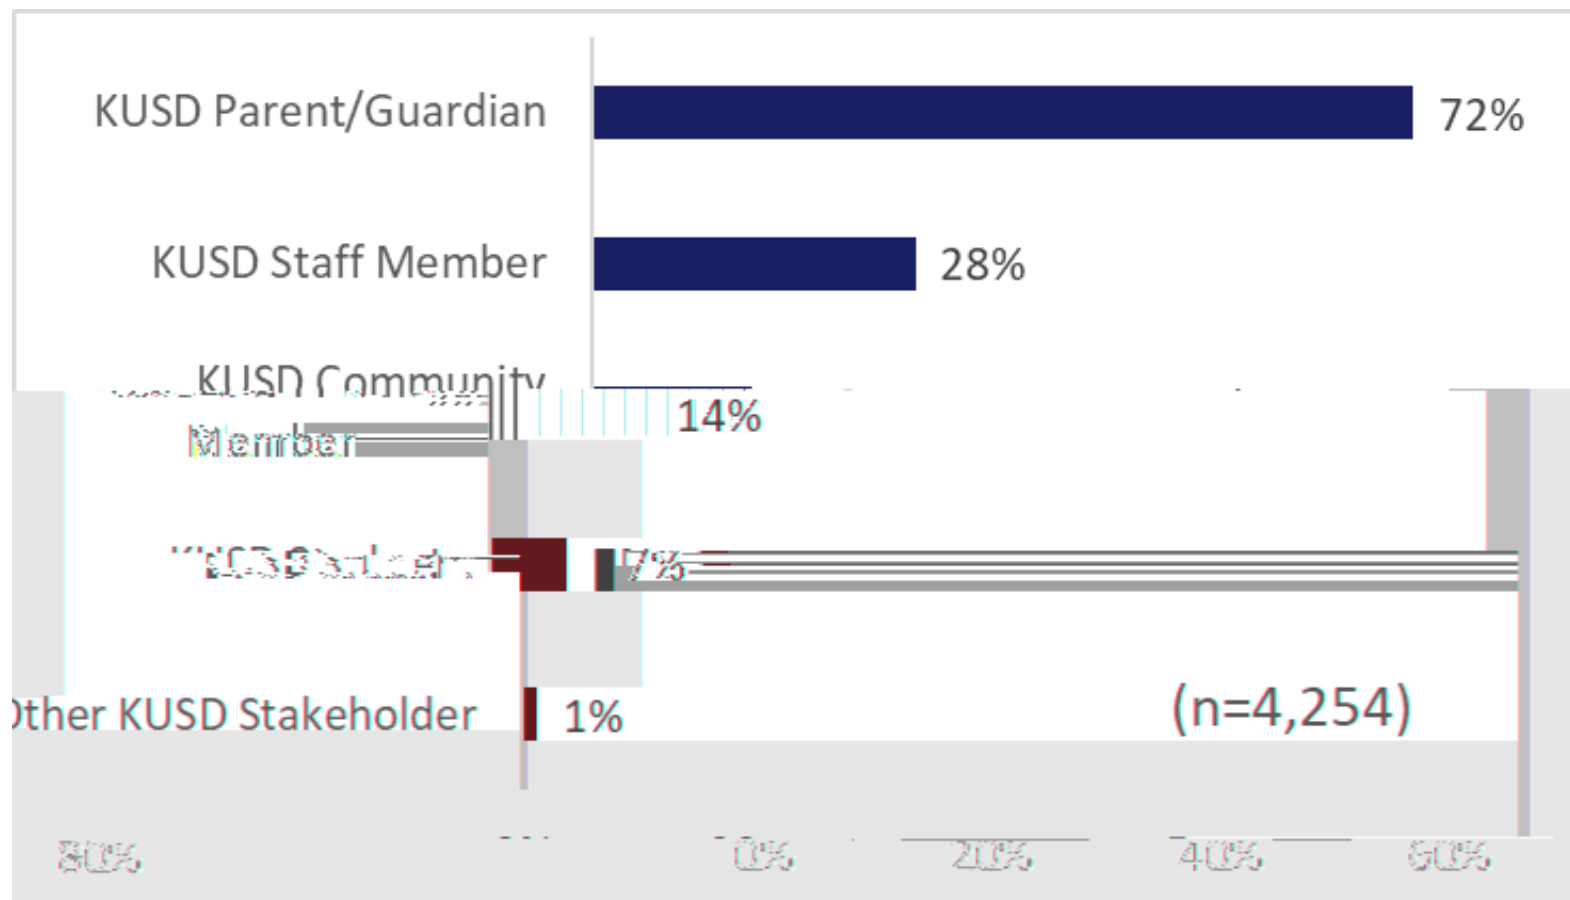

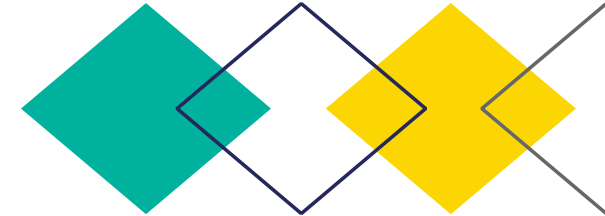

Reuther Central High School 30 attendees

Wednesday, October 25

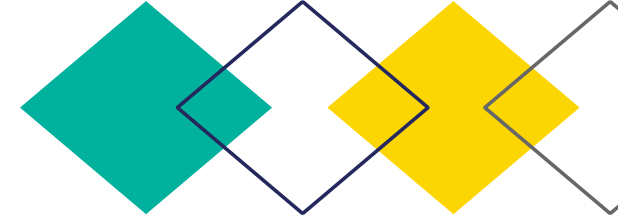

Bullen Middle School 67 attendees

The online survey was announced in community meetings and posted on the District website. Parents, students, employees, and community stakeholders were encouraged to participate in the survey to provide input about the rightsizing process. More than 4,000 valid responses were received (4,061). Results of the community meeting and survey feedback are presented in the aggregate.

What describes your relationship with KUSD?

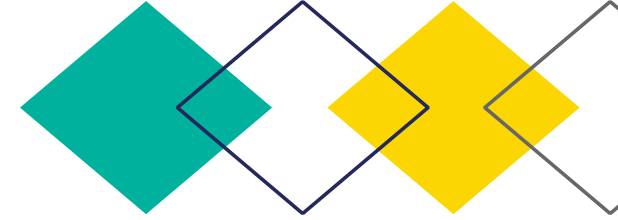

If you are a KUSD employee, where do you work?

Do you feel the facilities (i.e., physical building and structures) of the school(s) you are associated with are:

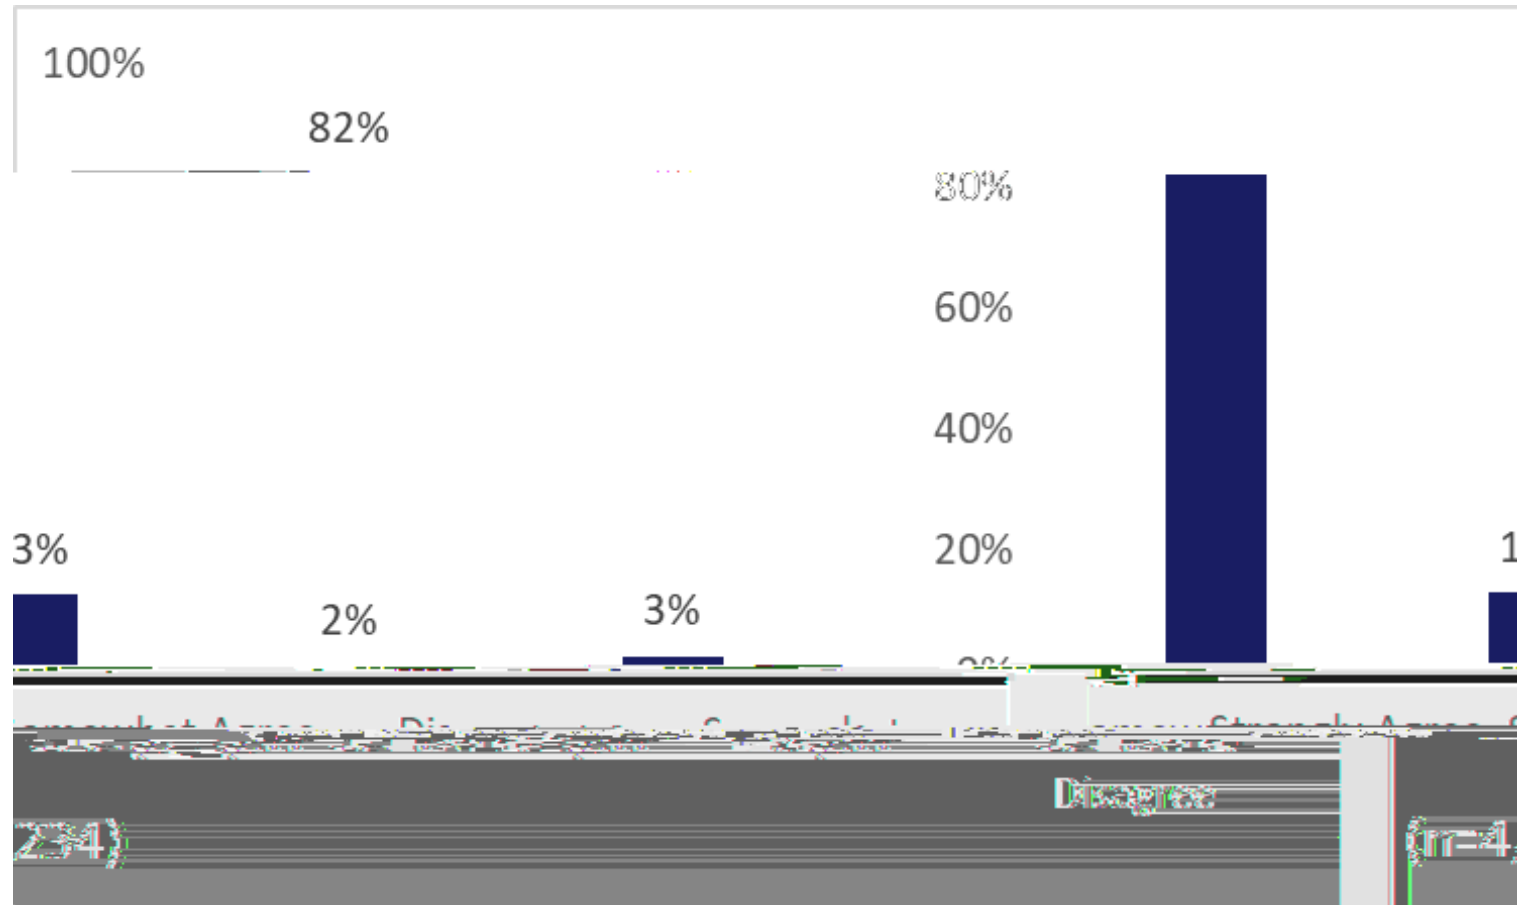

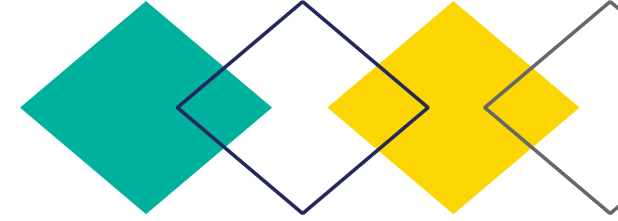

There should be equal academic opportunities for all students across the district in all schools.

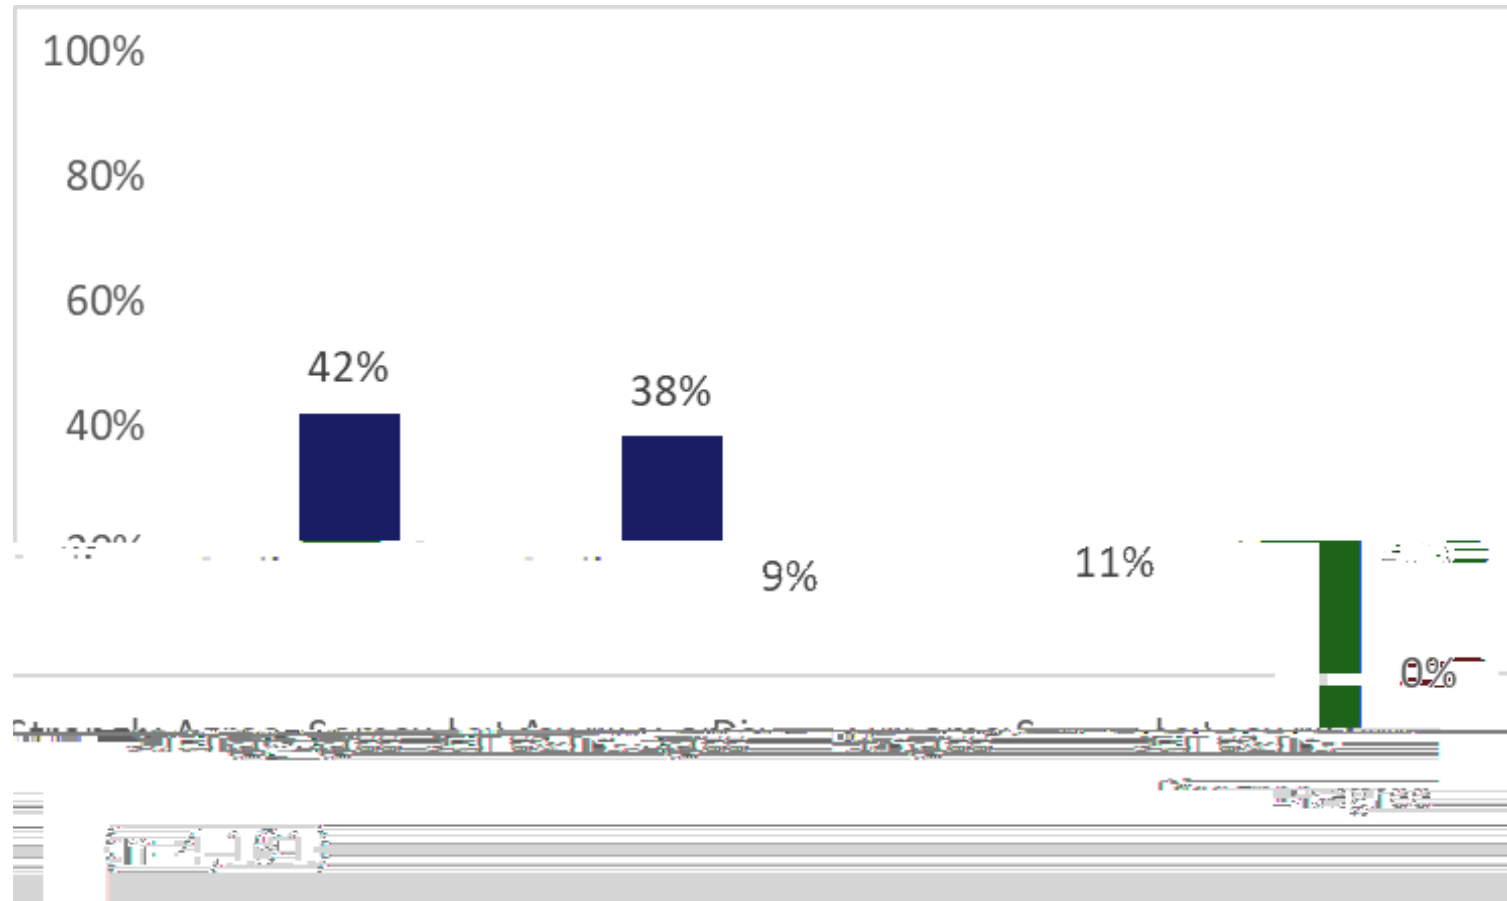

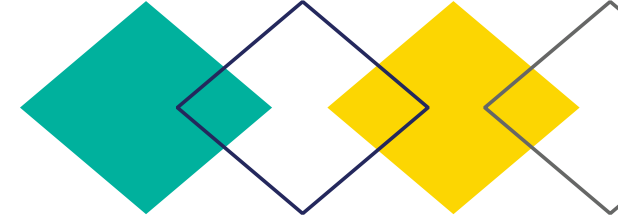

There should be high-quality extracurricular activities in all schools.

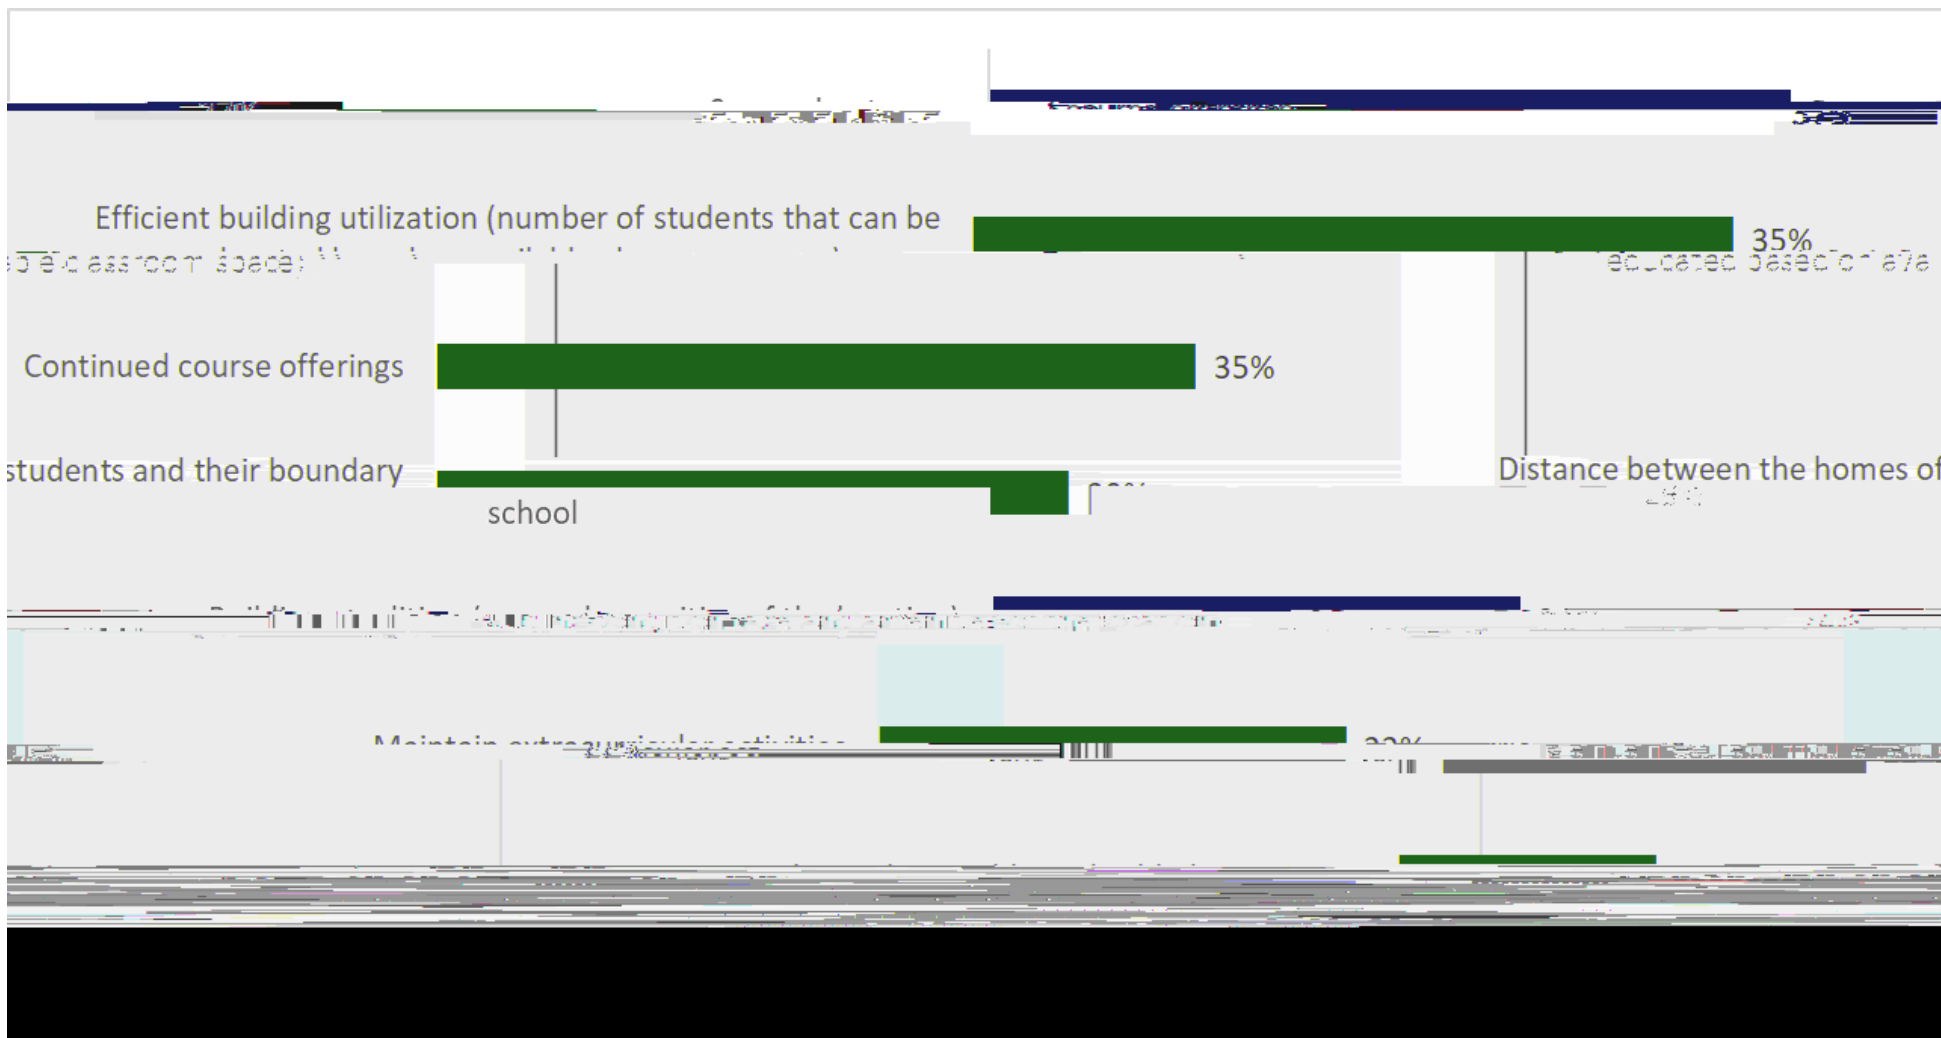

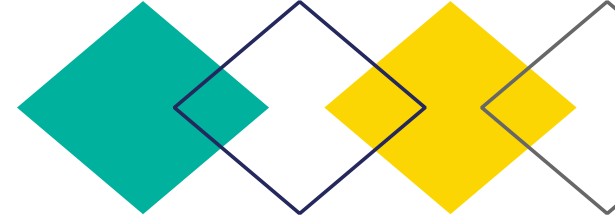

There should be equal resources for special education, tutoring, counseling, and other support services in all schools.

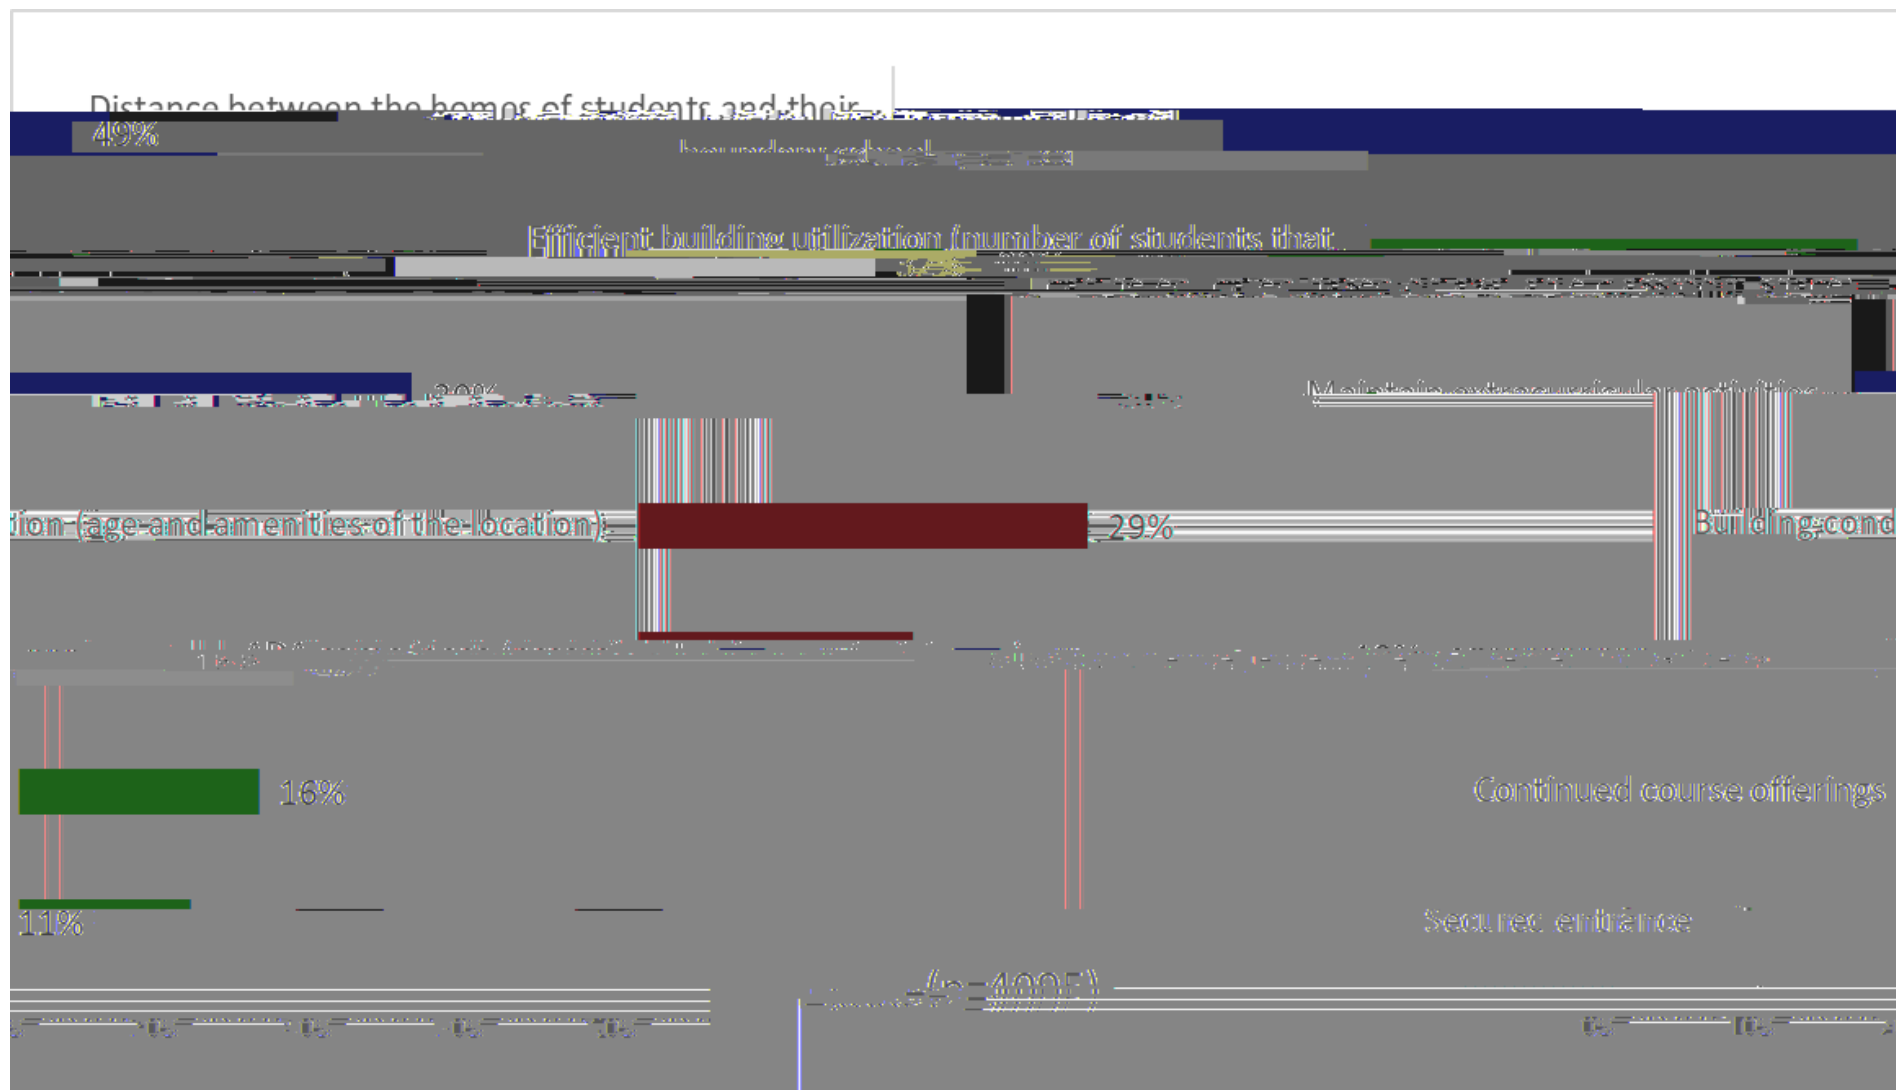

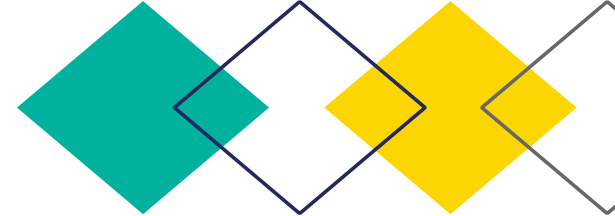

KUSD should expand Pre-School/Early Childhood and 4K Education services.

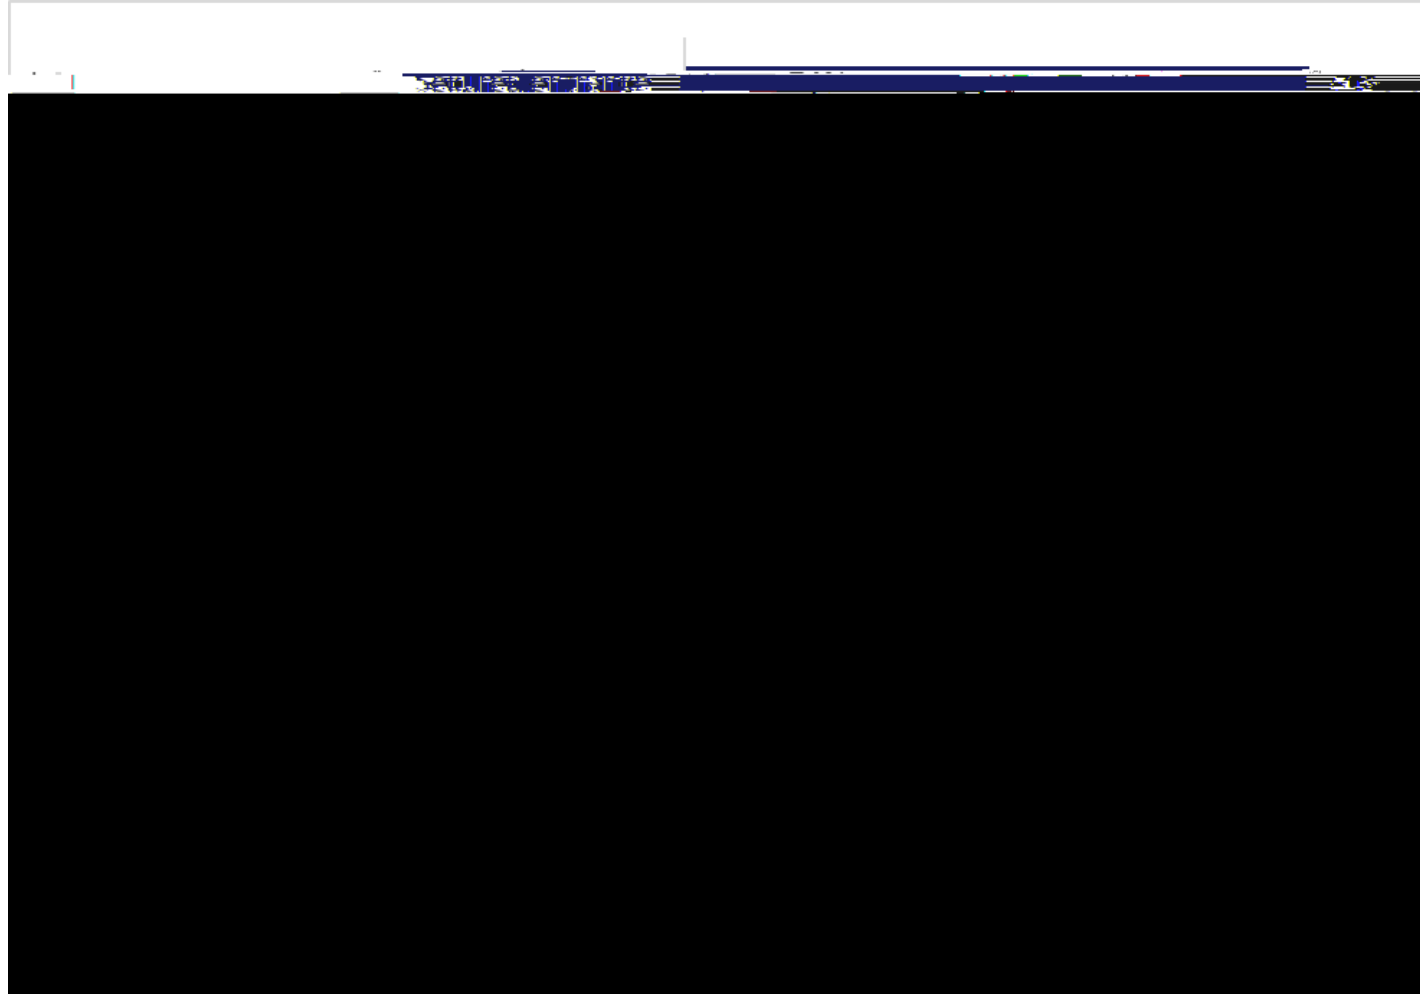

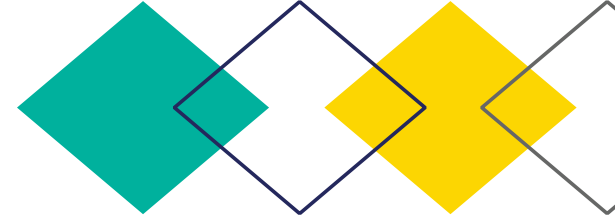

What rightsizing objectives are MOST important to you?

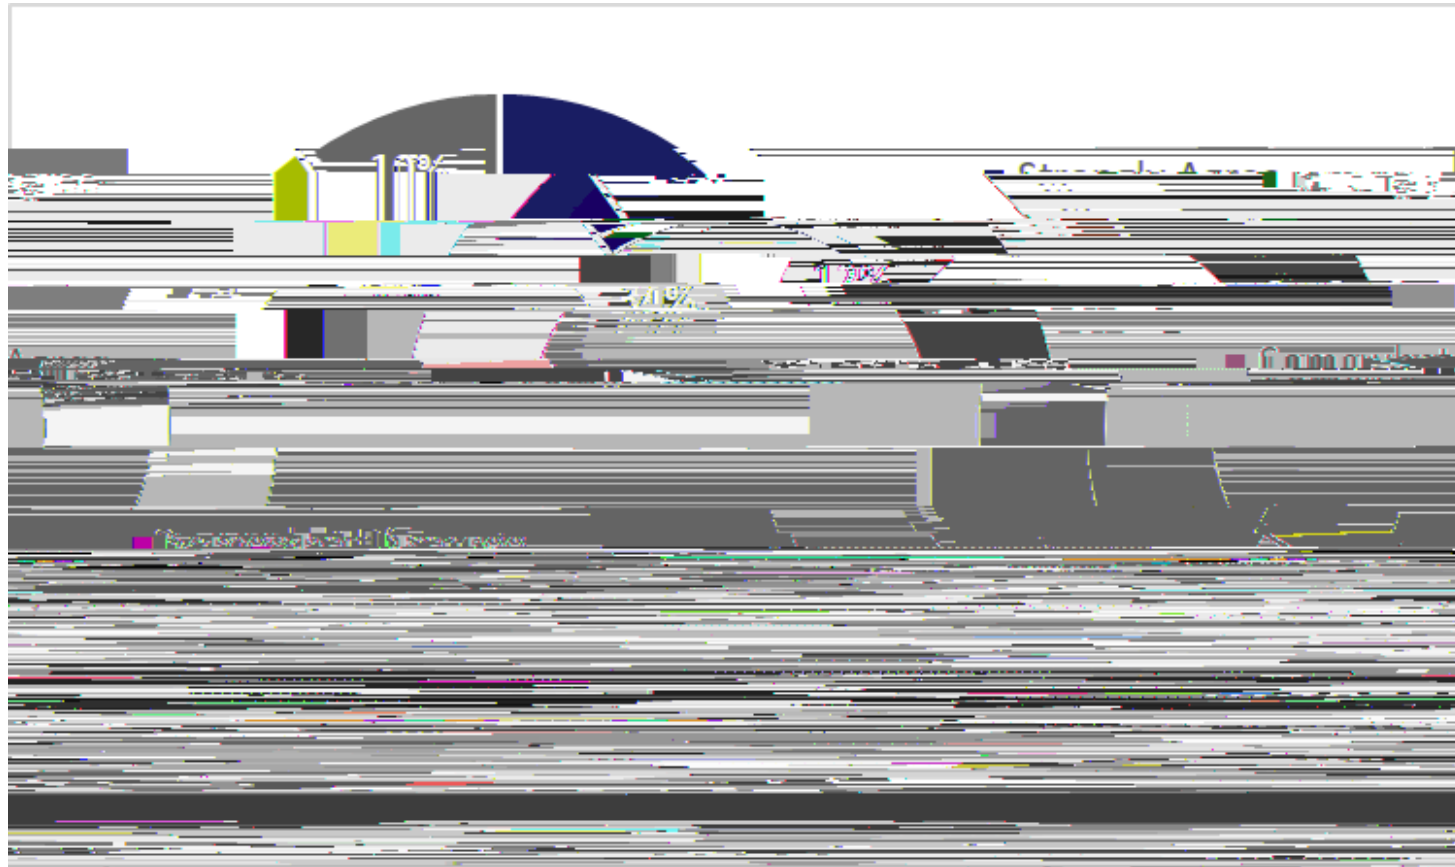

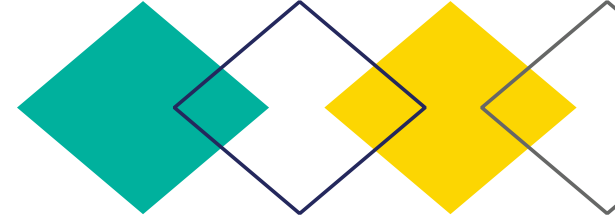

What rightsizing objectives are LEAST important to you? (Choose 2)

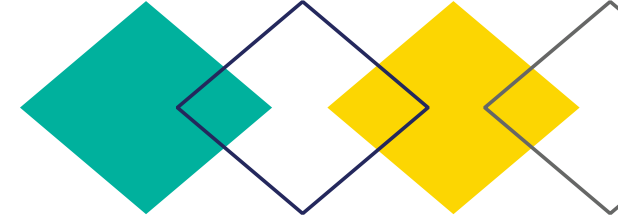

Of the following options, what should be included in the basic standard requirements of a school building/facility? (Choose 5)

I would support school boundary changes for resident locations to balance enrollment and optimize facility usage among all boundary schools.

Which ways to address the issue of school facility optimization would you support MOST?

Fightsizing is being done to maintain current
services, programs, and $(m \cap c) - D(p) - 2(p) - 2es$

Thank You
